TREEMARSHALLS

TREE SURGERY | STUMP REMOVAL | HEDGE MAINTENANCE

Flailing work in Ashington, West Sussex

We have recently undertaken works in Ashington, West Sussex. The work consisted of vegetation management and flailing works next to Nightingales Vineyard. We used our Robot Flail to successfully clear vegetation and reduce overgrown woodland undergrowth. Brush cutters were used in areas that our Robot Flail was unable to reach. The team also carried out tree thinning and lifting around the pond edge. Waste was chipped on site around the pond edge to create a path. Our customer was very happy with the completed work.

Churchyard Tree Care in Coldharbour, Surrey

Tree Marshalls Ltd were booked in by St James' Church situated on Abinger Common. The job consisted of pollarding a lime tree located in the church yard. Branches overhanging the church roof were meticulously removed to ensure no damage was caused. These branches were removed to stop the squirrels from entering the bell tower. We also lifted the canopy to give clearance of 4-5m. This allows better access to the graves below. All the branches over the graves were carefully lowered using our rope pulley system.

August in reviews

"Excellent service from quote to completion. We're really happy with the trees and so are our neighbours. The guys were lovely and very helpful and I swear the garden is cleaner now than when they started!"
- East Grinstead Customer

"The attention given to me as the customer was great. The work done was a very high standard and the professional attitude to completed task was perfect. I really wish Dillon and his team every success. What a great find...WELL DONE"
- Dorking Customer

"I had to remove a tree that was preventing some wall repair work and took a chance on tree Marshalls. Dillon arrived quickly with a reasonable quote and two days later the job was completed. Friendly and professional. I would have no hesitation in highly recommending this company."
- Brighton Customer

"Excellent job done 5 large conifers carefully taken down in an awkward position gas tank and shed below. Price was exactly what they quoted and a small extra charge for another tree that was not in the original quote. Well done and thank you Dillon."
- Haywards Heath Customer

"Very happy with work provided. The guys were professional, safety conscious and cleared up after themselves. The cherry picker meant the work was completed much quicker than if it would have been if it had been done with just ladder and ropes. Would definitely use again."
