**TREEMARSHALLS**  
TREE SURGERY | STUMP REMOVAL | HEDGE MAINTENANCE

## What's new?

After a recent surge in our customers requesting Robot Flailing services, we decided to invest and adapt our services to our customers' needs. Amazon Prime's Clarkson's Farm has widened an interest in the use of Robot Flails. Jeremy Clarkson can be seen mulching with what he calls 'Wally the radio-controlled mulcher'. Since the episode aired in May 2024, we have received an influx of enquires for the 'Clarkson's Farm Clearing Machine'. Here at Tree Marshalls Ltd, we pride ourselves on meeting the demands of all our clients. Our private and commercial customers cover many sectors, including country estates, landowners, housebuilders, developers, architects, woodland trusts, councils and other government bodies. We have previously worked for Wentworth Estate, Horsham Council and Metro Bus just to name a few.

## Southwater Country Park Ash dieback clearance

We have kicked off September with a BANG! Tree Marshalls Ltd have been back at Southwater Country Park to complete ash dieback clearance. We used a 13 ton digger with a tree shear to remove the trees in the initial section of land. We then removed the trees with our mini loader and transported them to the closest car park for processing. For the larger trees located close to the closed off public footpath, we used our cherry picker to dismantle and our bigger machinery once at a suitable height. The cherry picker was also used to removed the larger trees situated on the neighbouring boundary. This gives us the opportunity to meticulously remove the trees with minimal risk to properties.

## September in reviews

"The team did a great job on our eucalyptus tree, and clearing up the garden. We would certainly recommend them." – Chris Miles

"Dillon and his team did a great job. They were punctual, friendly and knowledgeable. I will recommend Tree Marshalls any time!" – Louise Nell

"Thanks for doing our job yesterday including taking 2 branches off a sycamore tree over a fence and on the banks of a stream. 2 other trees were cut back and all waste was cleared away. A fantastic job done and will def use Tree Marshalls again and recommend to others. Thanks" – Bob & Caroline

"Thank you. I think you are fabulous, friendly neat workers." – Caroline Mushens
