"Tree Marshalls carried out a hedge removal and cutting back of trees. The service that we received from Dillon and his team was excellent. Dillon attended and gave us a comprehensive detailed quote. The team arrived on time and were all very polite and respectful. All the work was carried out to a very high standard. The clearing-up process was fantastic, so much so that you wouldn't have even known that they had been there! Would have no hesitation in recommending Tree Marshalls to others."

## Haslemere, South West Surrey

Tree Marshalls Ltd recently carried out a successful reduction of eight lime trees along a private road. Using our Hinowa 2010 Cherry Picker and skilled climber Adam, the team ensured a uniform shape for all trees. The ground crew efficiently processed the waste through our Timberwolf chipper, with biomass material transported back to the facility. The client expressed satisfaction with the results, marking another successful day for Tree Marshalls.
