TREEMARSHALLS
TREE SURGERY | STUMP REMOVAL | HEDGE MAINTENANCE

Dutchells Copse, Hosham

Tree Marshalls Ltd successfully felled 84 ash trees to ground level as part of a woodland management project. Using a tracked chipper, we evenly distributed woodchip throughout the area, while logs were stacked neatly on-site for future use.

With a public footpath running through the site, special care was taken to ensure safety. Signage was installed before work began, and operations were planned around peak usage times to minimize disruption for local school children and other users. This project highlights Tree Marshalls Ltd's focus on safe, efficient, and environmentally conscious tree management.

Emergency call out, Woking

During Storm Bert, Tree Marshalls Ltd arborists responded to an emergency involving an uprooted oak tree threatening property. The team worked swiftly under challenging conditions, completing the removal safely at night using a cherry picker for precise access.

The work carried out by Tree Marshalls presents the expertise in storm response and commitment to safety, even in adverse weather conditions.

November in reviews

"I had a conifer felled and two other trees reduced by Tree Marshalls, and was very impressed by their service and professionalism. Job completed quickly and as agreed, and the guys were most helpful and did a great job of cleaning up afterwards. Would highly recommend."

- John Thorogood

"We were so pleased with the tree work Dillon and his team carried out for us, they couldn't have been more friendly and polite, Dillon took his time and shaped the trees making them all look great, when they finished the job they cleared up the garden leaving no mess whatsoever, great price as well, highly recommended them."
